LAGUNA™ WATER BURIAL URN

Group Ceremony/ Pets

Measures 8 inches wide x 9 inches tall;
55 cubic inches.

Adult

Measures 13 inches wide x 11 inches tall;
240 cubic inches.

Introducing the Laguna™ Water Burial Urn. This adult size urn is breathtaking in its quality. Measuring almost 13 inches in width, families will have a glorious flower to memorialize their loved one. Below the large paper made flower is a 12 inch round urn, where cremated remains can be secured. This biodegradable urn will float on the top of water for some time. Being made completely of paper, it will break down quickly in ocean water. The bottom of the Laguna™ Water Burial Urn is engravable with name, dates of life and words of sentiment. The experience of seeing a loved one's urn float on the top of water for a short period and then slip under is emotional and heartwarming. This is the perfect 'send-off' for those who loved water.

Biodegradable Urns

Always Busts

Your Satisfaction is Guaranteed.

Gracefully capturing the memory of your loved one, the Always Bust will be a unique work of art serving as a lasting tribute. The Always Bust will be sculpted by world class artists and will be a memorial to be treasured by loved ones for generations.

Planning a funeral - We will use cutting edge technology to 3D scan the individual and produce the Always Bust. **Your loved one has passed** - Our world renowned sculptor, Rip Caswell will produce a hand-sculpted work of art, created from images of your loved one.

The following material options are available when creating each bust:

- Gypsum – Gypsum is a mineral that is found in plaster. A white tinted variety of gypsum called alabaster, has been used for sculptures in ancient Egypt, Rome and medieval England.
- Genuine Bronze – Having masterfully created over 200 beautiful bronze sculptures throughout his career, Rip Caswell is our primary sculptor. He is not only a judge for sculpting competitions nationwide, but is also a frequent presenter at art seminars and was commissioned by the U. S. Navy to sculpt an 8-foot tall sculpture of Admiral Chester Nimitz, that now rests at the base of the Battleship Missouri Memorial in Pearl Harbor, Hawaii.

Among the inherent grief and challenges that the passing of a loved one brings, an important consideration is the best way to create a lasting tribute to their memory. Memorializing their essence with an artfully hand sculpted bust is a rare and beautiful opportunity to do so. Please ask your funeral professional for additional information on this unique process.
